

## Neuro-agility Profile™ Licenced Practitioner

### 1 Day Accreditation Programme

### Help individuals, teams and organisations become more agile

Are you supporting people and organisations going through **change and transformation**? Helping people become more agile – means improving their thinking, ability to innovate, learn and perform better, whilst also enhancing their health and wellbeing.

### Become an Accredited Practitioner and lead the way in neuro-agility impact

Increasing, **measuring and tracking** the agile brainpower of every individual, leader and team helps reduce the cost of change, enabling people to **think faster and more innovatively, learn faster and perform better**.

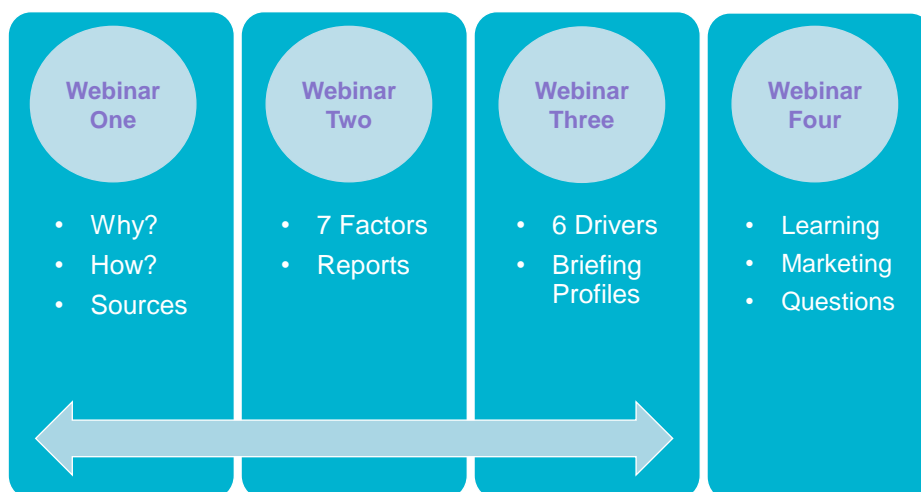

**The Neuro-agility Profile™ Advanced+ assessment** is a multi-dimensional, neuroscientific brain profile assessment. It describes a person's unique neurological design, explaining how they learn and think. It assesses 6 drivers that impact brain performance, which enable people to enhance brain their performance and agility.

The accreditation certifies **coaches, HR, talent, L&D and performance improvement professionals** to assess and debrief people and teams on their unique neurological design (potential) and the drivers that optimise their brain performance and brain health.

## 7 benefits of improving agile brainpower:

1. **Improves individual and team performance** - improving brain fitness helps people work faster and smarter so they achieve their goals more productively
2. **Develops leadership and change management skills** - problem-solving, critical thinking, and creativity. Based on accurate understanding of their neurological design, leaders and managers have a clearer understanding of how uniquely they deal with change, solve complex problems, think, learn, serve, influence, and inspire
3. **Promotes a learning culture** - helping improve people's ability to learn faster, concentrate and remember, sustainable advantage for the future.
4. **Improves emotional intelligence** - providing a predictive analysis and accurate awareness and management of their neurological design
5. **Enhances wellness, health and safety** - helping manage stress, fatigue, identifying and minimising risk for human error, reducing accidents and promoting workplace happiness
6. **Improves talent selection and recruitment** - helping you align people's neuro-design with the jobs they do more effectively
7. **Boosts engagement** with people having an accurate understanding of who they are, how they fit in and can best contribute.

## Your accreditation programme consists of the following:

## Your accreditation programme consists of the following 8 steps:

1. **Complete your own Neuro-agility brain profile:** you will also receive a link to access a series of [self-study videos](#) and the [Neuro-agility downloadable workbook](#). There are 14 online modules, including 33 videos (total of 23 hours, approximately). This will be explained in detail in the welcome webinar.
2. **Welcome webinar (60 minutes):** [Welcome introduction](#), getting to know each other, an introduction to Neuro-agility and explanation of how to get the most out of the accreditation learning process.
3. **Self-study (online video learning):** in your own time, work through the first 7 [online modules](#). You will find a short quiz to complete at the end of each module:
  - Module 1: NAP™ Advanced+ Brain Profile Debriefing Video
  - Module 2: Introduction to the NAP™ Practitioner Training Self Study Program
  - Module 3: Future Skills
  - Module 4: What is Neuro-agility & Why It Matters
  - Module 5: An Introduction to Brain Areas & Brain Basics
  - Module 6: How the Brain Works
  - Module 7: Learning Implications of Your Neurological Design
4. **One-day interactive workshop:** This workshop will provide you with a good [understanding of the Neuro-agility model, approach and will help you develop your expertise in debriefing the profiles](#). The outline of the day is as follows:
  - Rationale – why Neuro-agility and why now?
  - Where and how this can help people
  - Background and development of the model
  - Detailed walk through of the Neuro-agility approach and model, 7 factors and 6 drivers, using interactive and blended learning, using your own reports to bring it to life, and with a focus on what this means for individuals and teams and how to develop and enhance the learning
  - You will be encouraged to join a WhatsApp group for peer coaching support.

5. **Self-study continuation of online video learning:** Watch the videos and work through your manual, completing the online modules and a short quiz at the end of each module:
  - Module 8: Drivers that Optimise Your Brain Performance
  - Module 9: How to Interpret the NAP™
  - Module 10: How to Debrief the NAP™
  - Module 11: The Neuro-agility Profile™, Variations & Differences
  
6. **Final zoom webinar** (60 minutes): Interactive **discussion session** and opportunity to explore any outstanding questions.
  
7. **Self-study and confirmation of learning assignment**
  - Module 12: Case Studies
  - Module 13: Marketing, Practitioner Licence Agreement & Next Steps
  
8. Membership of FPG's **Neuro-agility Practitioner's community** for continuing professional development.

“As a coach I am convinced that a deeper self-awareness and self-knowledge supported by the scientific facts of the Neuro-Agility test help to set the focus for development and success. Neuro-Agility provides unique information and data to clients about the way their brain works, the way they learn best. When in our business world organisations are turning agile there is a role for us to support the journey of the individual towards agility and brain fitness to master learning needs and challenges with the constant change of the modern world”.

**Judit Ábri von Bartheld MA, MCC**

## Once you are accredited your potential income sources include:

- Profit margin on selling of individual and team profiles in addition to the fees you charge for one-to-one coaching debriefs and team facilitation at your rates
- Ability to provide additional and new insight into team dynamics PLUS any of your existing management, leadership & team programmes
- Complements all and any existing profiling, adding depth of the initial consideration of the brain
- Application in any industry & business, education and sport
- Potential to deliver Neuro-agility masterclasses

## Investment

- Full workshop and webinar accreditation: £2,000 + VAT per person
- Online accreditation: £1700 + VAT per person
- Annual licence renewal fee (includes retake of Neuro-agility Profile™): £195 + VAT
- Cost per profile: £70 + VAT each (one token = one profile. Minimum order of 3 tokens per transaction).

## Dates for our Accreditation Programmes and How to Book

For details and dates of our accreditations and to make a booking, please contact us on [info@fullpotentialgroup.com](mailto:info@fullpotentialgroup.com) or call the FPG head office on +44 (0)1628 488990.

## Terms & Conditions

A booking is confirmed on 100% payment of the full fee. FPG reserve the right to cancel a 'reserved' place if full payment has not been received. The following cancellation fees apply from the date of the event (including transfer date):

- 61 – 15 working days = 65%
- 14 – 0 working days = 100%

**Due to the nature of this training we are unable to accept a change of delegate beyond 30 days of the training date. FPG reserve the right to re-arrange the training date should the minimum number of delegates not be reached.**
