

## Neuro-agility Profile™ Licenced Practitioner

Accreditation Programme

### Help individuals, teams and organisations become more agile

Are you supporting people and organisations going through **change and transformation**? Helping people become more agile means improving their thinking, ability to innovate, learn and perform better, whilst also enhancing their health and wellbeing.

### Become an Accredited Practitioner and lead the way in neuro-agility impact

Increasing, **measuring and tracking** the agile brainpower of every individual, leader and team helps reduce the cost of change, enabling people to **think faster and more innovatively, learn faster and perform better.**

**The Neuro-agility Profile™ Advanced+ assessment** is a multi-dimensional, neuroscientific brain profile assessment. It describes a person's unique neurological design, explaining how they learn and think. It assesses 6 drivers that impact brain performance, which enable people to enhance brain their performance and agility.

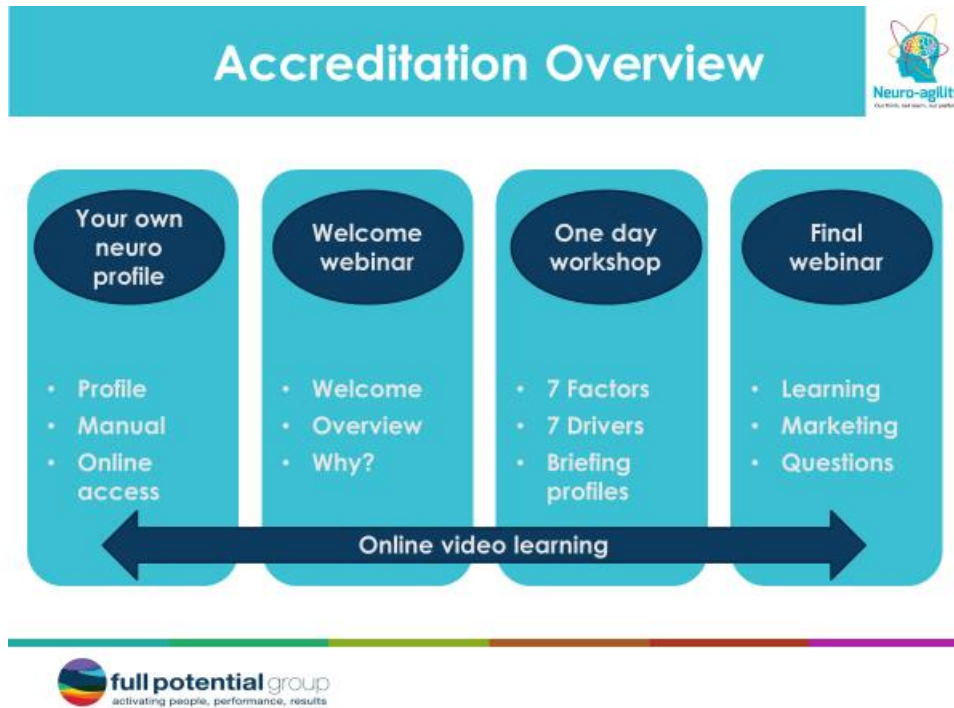

The accreditation certifies **coaches, HR, talent, L&D and performance improvement professionals** to assess and debrief people and teams on their unique neurological design (potential) and the drivers that optimise their brain performance and brain health.

## 7 benefits of improving brainpower:

1. **Improves individual and team performance** - improving brain fitness helps people work faster and smarter, so they achieve their goals more productively
2. **Develops leadership and change management skills** - problem-solving, critical thinking, and creativity. Based on accurate understanding of their neurological design, leaders and managers have a clearer understanding of how uniquely they deal with change, solve complex problems, think, learn, serve, influence, and inspire
3. **Promotes a learning culture** - helping improve people's ability to learn faster, concentrate and remember, sustainable advantage for the future.
4. **Improves emotional intelligence** - providing a predictive analysis and accurate awareness and management of their neurological design
5. **Enhances wellness, health and safety** - helping manage stress, fatigue, identifying and minimising risk for human error, reducing accidents and promoting workplace happiness
6. **Improves talent selection and recruitment** - helping you align people's neuro-design with the jobs they do more effectively
7. **Boosts engagement** with people having an accurate understanding of who they are, how they fit in and can best contribute.

## Your accreditation programme consists of the following:

1. Complete your **own Neuro-agility brain profile**
2. Interactive zoom **webinar one** (90 minutes): **Welcome introduction**, getting to know each other, an introduction to Neuro-agility and explanation of how to get the most out of the accreditation learning process
3. Self-study, online video learning
- 4. Attend a full 1 day workshop**
5. Self-study continuation of online video learning
6. Interactive Zoom **Final webinar** (90 minutes): Interactive **practise session** de-briefing a variety of Neuro-agility profiles, opportunity to explore marketing and any outstanding questions
7. Self-study and **confirmation of learning assignment**
8. Membership of FPG's **Neuro-agility Practitioner's community** for continuing professional development

## Self-study learning

Once you have signed up to do the accreditation, you will receive a link to access a series of videos and your Neuro-agility downloadable workbook. During the **welcome webinar** the content of this self-study learning will be explained to you in more detail. Throughout the accreditation

you will work your way through 14 self-study modules, including 33 videos (total of 23 hours, approx.).

*"As a coach I am convinced that a deeper self-awareness and self-knowledge supported by the scientific facts of the Neuro-Agility test help to set the focus for development and success. Neuro-Agility provides unique information and data to clients about the way their brain works, the way they learn best. When in our business world organisations are turning agile there is a role for us to support the journey of the individual towards agility and brain fitness to master learning needs and challenges with the constant change of the modern world".*

**Judit Ábri von Bartheld MA, MCC**

## Investment

- Full workshop and webinar accreditation: £2,000 + VAT per person
- Annual licence renewal fee (includes retake of Neuro-agility Profile™): £195 + VAT
- Cost per profile: £70 + VAT each (one token = one profile. Minimum order of 3 tokens per transaction).

## Dates for our Accreditation Programmes and How to Book

For details and dates of our accreditations and to make a booking, please contact Milly in our Client Services team, [claire@fullpotentialgroup.com](mailto:claire@fullpotentialgroup.com) or call the FPG head office on +44 (0) 1628 488990.

## Terms & Conditions

A booking is confirmed on 100% payment of the full fee. FPG reserve the right to cancel a 'reserved' place if full payment has not been received. The following cancellation (Including transfer date) fees apply from the date of the event:

- 61 – 15 working days = 65%
- 14 – 0 working days = 100%

Due to the nature of this training we are unable to accept a change of delegate beyond 30 days of the training date. FPG reserve the right to re-arrange the training date should the minimum number of delegates not be reached.
